

Reconstruction of Calhoun Road, Greenfield Avenue to Bluemound Road

July 17, 2008

Dear Property Owner:

SUBJECT:	I.D. 1060-18-70	I.D. 2721-10-70
	East West Freeway	S. Calhoun Road
	Intersection with Calhoun Road	Greenfield Avenue to Bluemound Road
	IH 94	Local Road
	Waukesha County	Waukesha County

Bloom Companies, LLC has been contracted to perform construction engineering services on the subject projects for Wisconsin Department of Transportation Bureau of Project Development Local Program. Earth Tech, Inc. is the WisDOT Local Program representative in the Southeast Region.

The reconstruction of Calhoun Road between Greenfield Avenue and Bluemound Road has been under construction since June 2, 2008. The contractors and project staff appreciate the caution and patience you have demonstrated during this inconvenience. Construction activity has been steadily increasing as the contractor works to meet contract deadlines of reopening Calhoun Road from Bluemound Road to Ruby Lane by September 1, 2008. The remaining roadway is expected to reopen on December 1, 2008, and remain open until March 1, 2009. On March 1, 2009 the roadway will close again until the completion of the project in July, 2009. The contractor has been working diligently to keep the dust down and maintain a manageable travel way for local traffic. They also are reminded regularly to be aware and considerate of pedestrians and vehicles that are permitted in the work zone. Please, continue to drive at a reduced speed and stay clear of the construction equipment.

Retaining walls are being erected, Deer Creek bridge has been removed and the new structures are being built, and storm sewer and water main is being installed throughout the project. A temporary bridge has been erected to carry IH 94, and the westbound bridge will soon be removed. The existing elevation of the roadway will soon be changing. Based on this increased activity, new traffic control will be employed starting July 21, 2008. New barricades will be placed across Calhoun Road south of Robinwood Street. Staggered barricades will be placed on Robinwood Street to allow local traffic. We are encouraging residents, deliveries and visitors to access the homes on Calhoun Road between Robinwood Street and IH 94 and on Judith Lane through this access. All other side roads will remain closed to Calhoun Road, with the exception of Elizabeth Drive. Please, note that this traffic control is in place for the safety of the traveling public as well as the construction workers. It is also important to remind everyone about Wisconsin State Statute 86.06(2), which states:

(2) Any person who, without lawful authority, removes, takes down, alters the position of, destroys, passes over or beyond any barrier so erected or travels with any vehicle upon any portion of a highway closed by barriers as in this section provided, or walks or travels in any manner upon the materials placed thereon as part of the repair or construction work, shall be liable to a fine of not less than \$10 nor more than \$100, or to imprisonment not less than 10 nor more than 60 days, or both,

and in addition thereto shall be liable for all damages done to the highway, said damages to be recovered by such governmental agency.

If you have any questions or requests, please contact the writer of this letter, Jeff Reedy, Project Engineer, working on behalf of the Wisconsin Department of Transportation. My field staff is working from an office located at 1300 S. Calhoun Road, Lower South. The field office phone number is (262) 797-7903. I will normally be on the job between 8am and 4pm, however, I will be able to stay after hours if prior arrangements are made. Additional information can also be found on a project website. A link to that website can be found at www.cityofbrookfield.com.
